B2G & B2B
To act and succeed together!

Business encounters and opportunities:

His Excellency Nikolay Viktorovich Lyubimov, Governor of Ryazan Region, working visit to Belgium and Luxembourg accompanied by Russian regional business leaders delegation

October 14-15, 2019
Luxembourg and Brussels
H.E. Mr. Nikolay Viktorovich Lyubimov is a Member of the State Duma of the Russian Federation VII convocation, Deputy Governor of the Kaluga Region (2011-2015), Mayor of the city of Kaluga in 2007-2010, and Acting Governor of Ryazan Region from February 14, 2017.
At the invitation of the Board of the Belgian-Luxembourg Chamber of Commerce in Russia and Trade Representation of the Russian Federation in Belgium and Luxembourg, His Excellency Mr. Nikolay Viktorovich Lyubimov, Governor of Ryazan Region, will conduct a working visit to the cities of Luxembourg, Liege and Brussels, on October 14 and 15, 2019.

The two-day working visit will focus on economic diplomacy, since this working visit will be accompanied by an extensive delegation of Russian business leaders. It will provide an opportunity to promote collaboration and knowledge-sharing between Russian Federation and the Belgian-Luxembourg Economic Union in the fields of innovation, logistics and technology.

It will also serve to position this Russian region near to Moscow as a valuable innovative, logistic, scientific and modern economic partner, as well as to further strengthen the bilateral relations established between our countries.

In Luxembourg, His Excellency will visit Guardian Glass head office and the plant that produces float, high-performance glass and fabricated glass products, taking into account that one of the Group’s factories is already located in the Ryazan region.

He will make a presentation to the business community about his Region and share his vision on how to stimulate economic cooperation at the B2B round table in the Luxembourg Chamber of Commerce. He will also visit the Airport Logistics Center, the Multimodal Railway Center, where he will negotiate cooperation in the field of logistics, technology and industry to facilitate progress in a complex, changing world.

In Liege, the Governor of Ryazan Oblast will discuss cultural and economic partnerships and the role of trans Eurasian business cooperation in our future prosperity and progress at a meeting with colleague His Excellency Governor of the Province of Liège Herve Jamar, local economic and business community.

In addition, his delegation will visit the management of logistics hubs aimed at cargo freight in the Flexport and Trilogiport.

In Brussels, His Excellency will lead a panel discussion and B2B meeting between Belgian and Russian business circles, and will meet with the Board and members of our Chamber.
Business issues

The organizers invite Belgian and Luxembourg companies from the industrial sectors concerned to join us in Luxembourg and Brussels for B2B in order to discuss the following issues with Russian entrepreneurs:

Russian companies representatives would like to discuss with business, traders and distributors, potential partners in the European Union the possibility of integrating their services and goods into their product line.

To calculate the interest in the mutual use of their distribution networks for export and import, discuss the possible marketing budget needed to enter European markets and enable Belgian and Luxembourgian and Russian high-quality products from various fields and services to freely circulate between our countries.

We will be glad to present to the Belgian and Luxembourg business community serious and reliable allies for the creation of business coalitions in economic cooperation aimed at a systematic and long-term mutually beneficial partnership!

Most of the leaders of these Russian companies participating in the delegation are fluent in English or another second European language, have some of the most advanced formations, and the Companies they represent are highly profitable and have great prospects for development - both for themselves, but most importantly for you!

Supported by:
Belgian and Luxembourg' entrepreneurs and companies are invited to the Round table with Governor of Ryazan region and members of his Government and B2B sessions with Russian entrepreneurs in Luxembourg city and Brussels center:

LLC "SkopinZernoProdukt"
Our company has been organizing the supply of grain, legumes and oilseeds to the ports of the Azov and Black seas for many years. Logistics is worked out by both road and rail transport. Deliveries are made on the basis of major Russian companies, TD RIF, KZP-Expo, Turkish companies Hakan, Agrosan, Arbel.
The main direction that we plan to develop is the supply of flax seeds to Belgium. Consider 2 options of delivery: motor transport, and marine shipping.
Belgium is the world's second processor of olive flax seeds, as well as one of the largest importers of these products.
We search Belgian or Luxembourg based companies which trade seeds of flax of oilseeds for processing, our company is ready to organize the program on deliveries, and also are ready to consider possibility of joint representation, for purchases of the required cultures.

Ryazan region has rich traditions and centuries-old history. Back into the ancient times, people, who lived here, created a great cultural layer of traditions and memory of many generations. During the next five centuries, the city having a favorable geographical position grew and developed rapidly. The main waterway - the Oka river - divides the territory of the Ryazan region into two parts: the northern part covered with forests and the southern one, including the areas of deciduous forests and forest-steppes. The climate of the region is gently continental. The recent years have been characterized by the growth of the basic macro-economic indexes. Machine-building, metal processing, construction materials industry, electric energy, chemical, food, light industry and non-ferrous metallurgy have been developing especially rapidly. The basic types of industrial products are following: oil products, chemical fibers, metal-cutting machines, radio electronics, medical equipment, forge-pressing equipment, automobile aggregates, machines for public services, non-ferrous metals, construction materials, leather, textiles, clothes and footwear, foodstuffs.

Ryazan is the main industrial center, which accounts for over 50% of the regional production. The regional stockbreeding specializes in meat and dairy farming. Cereals & sugar beet-root production prevails in plant-growing. Powerful processing industry is the most important condition for the development of agriculture. The region possesses a wide network of bread-baking plants, meat-processing factories, dairy factories, grain elevators and distilleries. The system of railways and motor roads in the region -3 railways and 3 motor roads of federal importance completed with local lines, gives the opportunity to organize the delivery of any cargoes with minimal costs. In the region the positive processes continue in the development of the consumer market of goods & services, there was the stable increase of the retail trade volumes, the growth of its turnover, as well as public catering & consumer services. The dynamic development of the consumer market is preconditioned by the creation of the favorable economic situation in the region for the development of business.
